INTRODUCTION

New i.d Interiors have been designing and furnishing residential investment properties in London and the South East for the past 15 years. We have worked with many private and institutional investors from all over the world providing cost effective furnishing solutions, often enabling our clients to maximise rental yields through improved rents and reduced void periods.

We are recommended by many leading estate agents, letting agents, property developers, house builders and investment companies not only from the UK but investors from South East Asia, Middle East and Europe whose chosen destination for their investment is the London property market.

Our latest packages are of a good durable quality and have been designed in a contemporary style as demanded by today's tenants.

Whichever package you select, rest assured that you will receive a great end product and a superb service. All of our packages are designed by a qualified interior designer and will be delivered and fitted by one of our in house installation teams. The property will be set up and completed ready for the tenants to move in saving you the time, money and inconvenience of arranging multiple deliveries from many different suppliers.
